

Nireas - Panagiotis Vekris

Chios, Greece | Vekris.gr | LinkedIn.com/in/npvekris

Profile

I was born in Amarousion, Attica, and I come from Syros. I grew up in Zografou, where I completed my high school education at the 6th General Lyceum of the same area in the 2023-2024 school year.

During the same year, I served as a Member of the Administration Council and as the Representative of the Student Communities on the School Committee of Secondary Education in the Municipality of Zografou. Additionally, I was elected President of the 15-member Student Council at my high school.

In 2024, I began studying at the Department of Shipping, Trade and Transport at the University of the Aegean, following my participation in the Panhellenic Examinations of that year.

I have written articles on various shipping-related topics, which have been published on news websites. These articles cover subjects such as route modifications, government funding for underutilized routes, shipping exhibitions, World Lighthouse Day, and more.

I have been involved in volunteering from the age of seven (7) years old. I worked as a volunteer since 2013 until today, in various festivals.

I also hold the title of administrator of the Facebook groups: "[Islanders for the Transport Equivalent](#)" and "[The neoclassical buildings of Syros emit SOS](#)".
